Subject : BSR system certificate

Dear sirs,

with reference to the development activity carried out on your equipment, we hereby certify that the **Butler Airdraulic** and **Butler AirCombi** tyre-changer, properly updated* and equipped with "**Butler BSR Kit*****" and properly provided with **paper** and **video instruction**, is capable and therefore approved for mounting and dismounting the **BSR Bridgestone Support Ring***** system.

We besides declare that this certification is valid **only** under the condition that the above mentioned equipment keeps the same configuration as Bridgestone Co. tested. Furthermore, this document doesn't apply to the dealer, whose skill will be judged after a specific training by Bridgestone Co. In reason of this, eventual dealer certification will follow.

Bridgestone CO. kindly thanks for your cooperation.

Date

30 November 2006

Bridgestone TCE

Jun Makino

* For the necessary upgrade please refer to the Informative note from Butler Co. issued on October 23rd, 2006
